

Keep Hand Working Height to a maximum of shoulder height for sheep handling.

**Shearer Heights:**

95% male population > 1315mm

50% female population > 1310mm

If shearer shorter than average, reduce E.C.R. floor height & enlarge the exit doorway floor recess to suit.

Estimated average adult Standing Sheep Head Height (S.S.H.H.) = 800mm.
